"Active Booking": Links and opens current and future booking(s). Booking(s) can be viewed, modified and cancelled with this sub-menu.

**"Recent"**

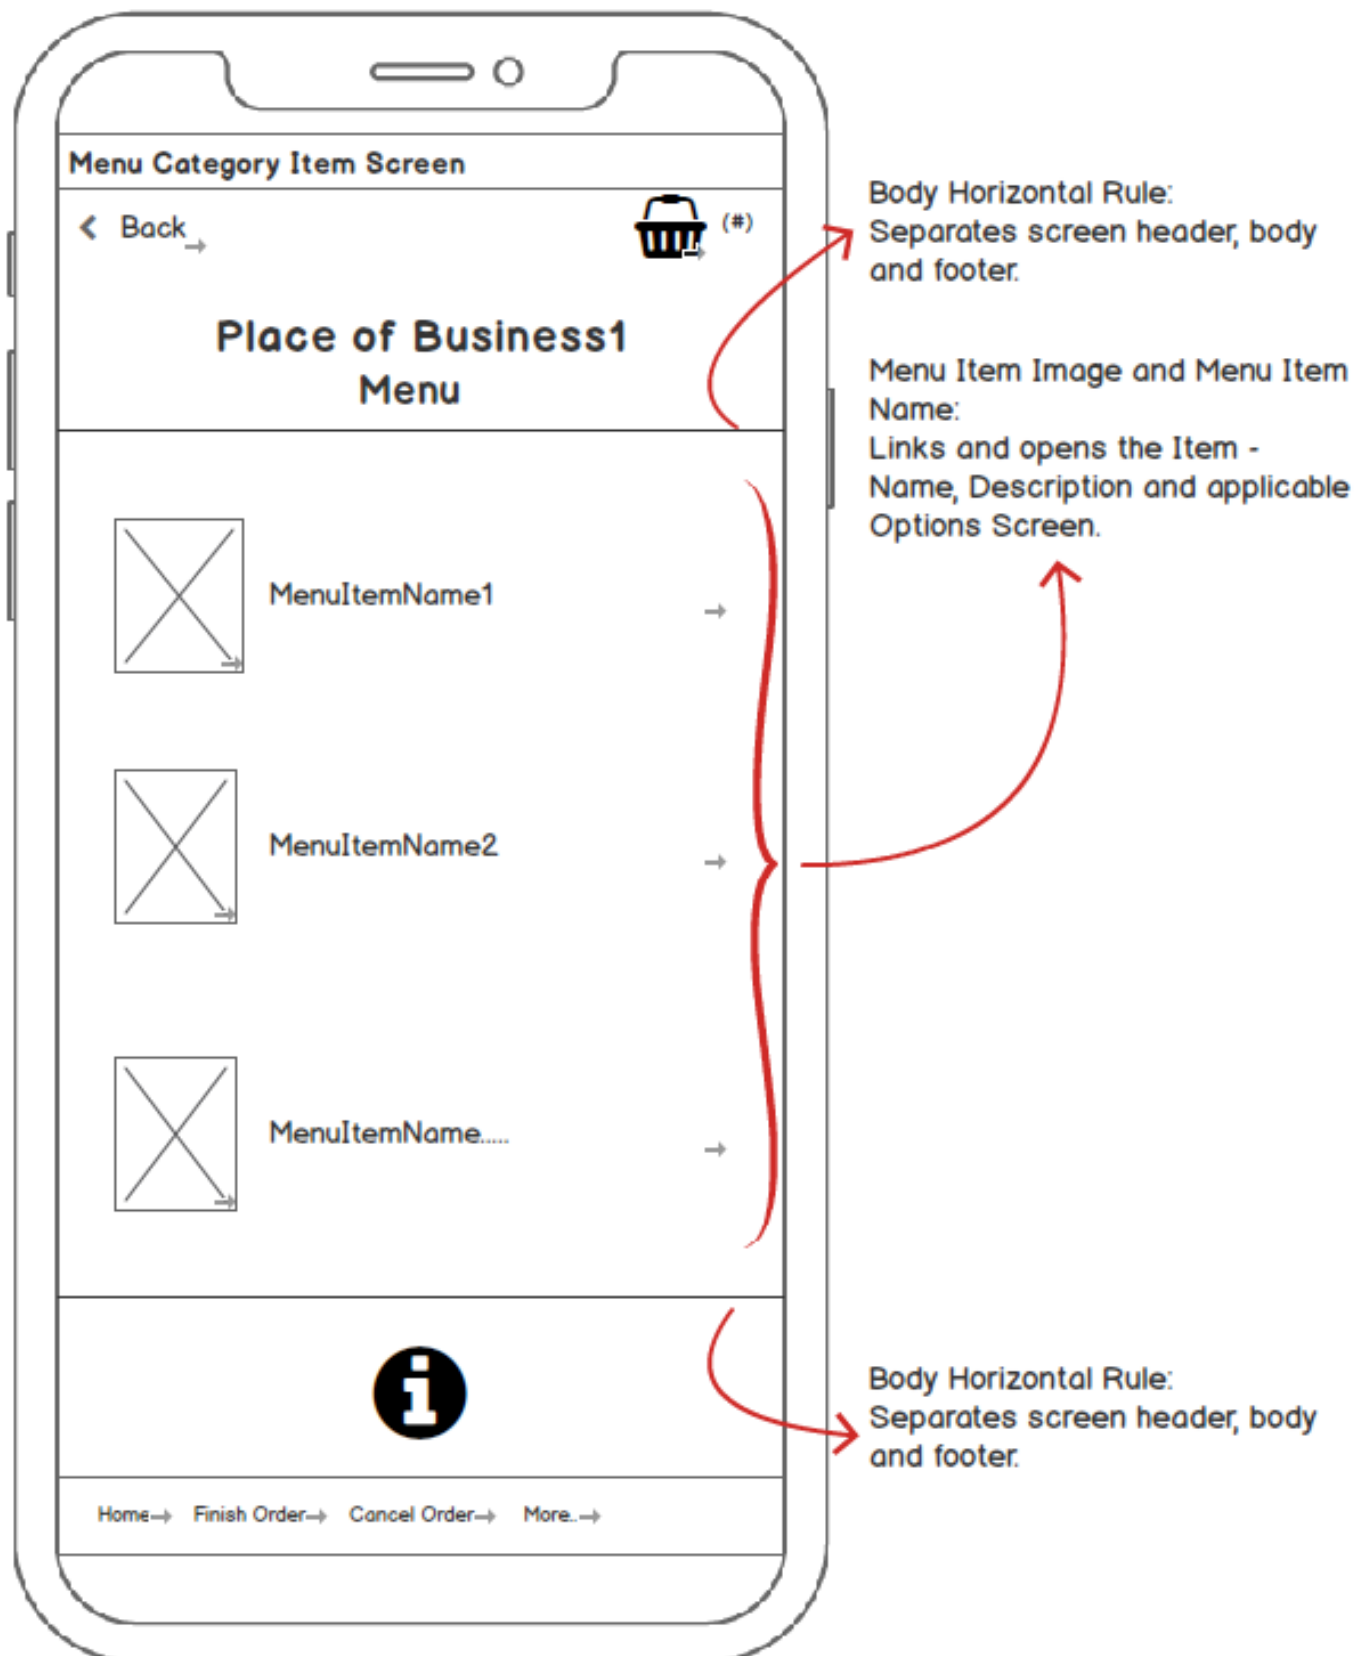

Shows recent order(s) or booking(s) for quick repetitive actions. Example: Reorder exact item(s) or Rebook similar event .

Step 1: System displays all businesses that are available Step 2; Student chooses the place of business Bottom Menu: Quick navigation. Gray in color if disabled (not applicable) on a certain screen.

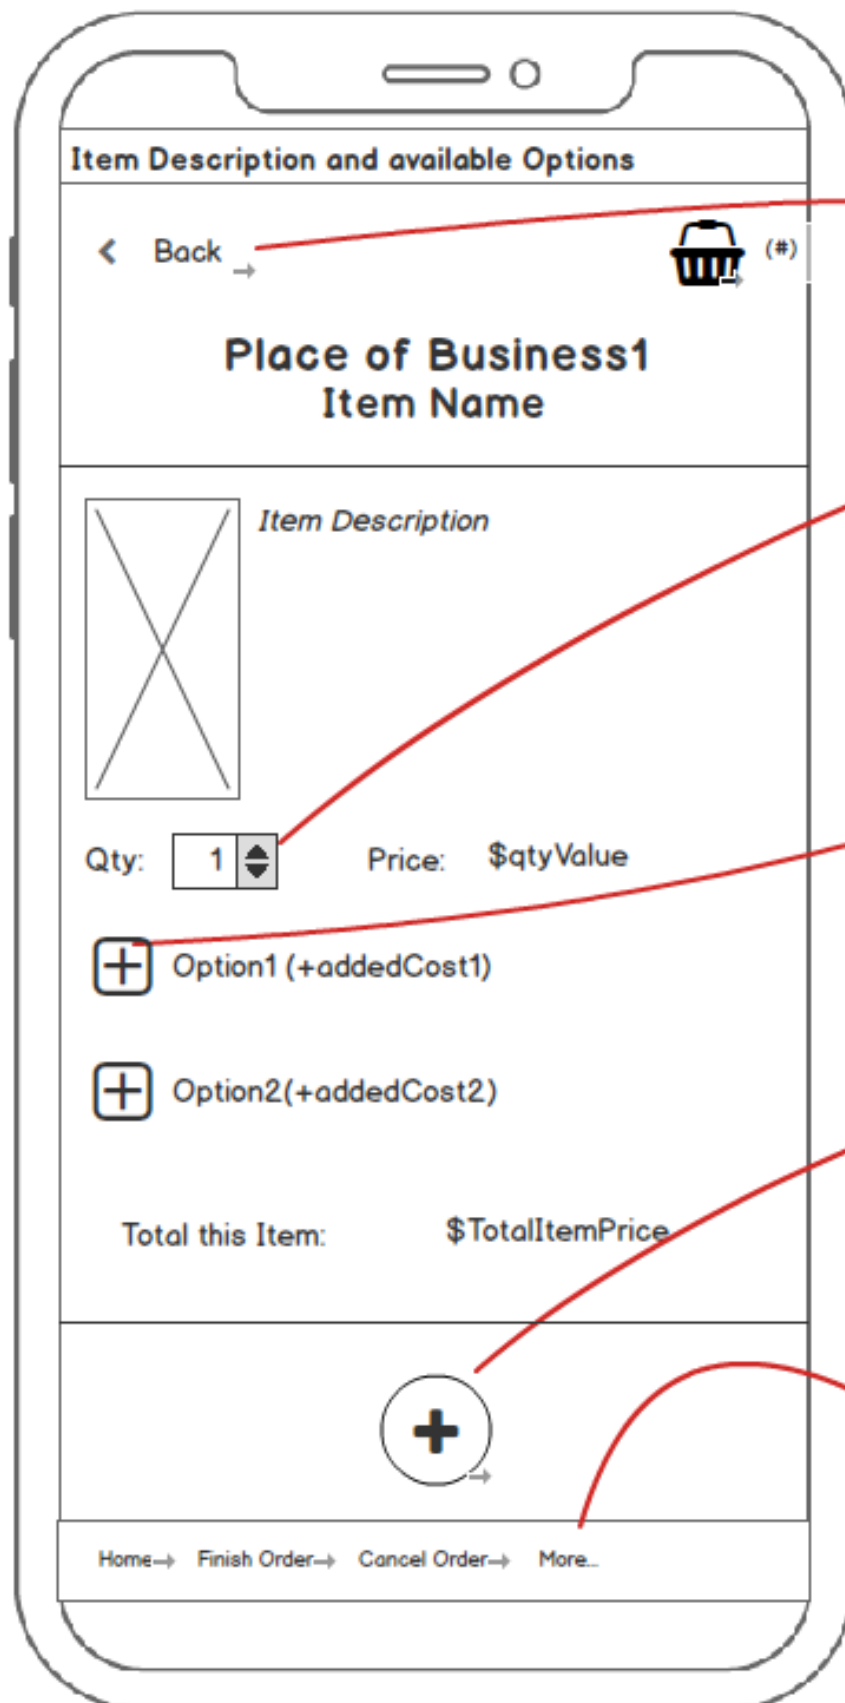

**\*\*Added Step-Screen:\*\*** System displays Categories-Food, Beverage, Specials, and more future enhancement to narrow down and minimize overcrowding in the Menu Item selection screen. System displays offered Specials for that specific Place of Business for quick order process. Icon is not visible if Category container is empty. **\*\*Alt-Flow: \*\*** Student decides to choose a different place of business by following the "More" - Quick navigation menu at the bottom of the screen. (3.b Go back to Step 1 - Place of Business Screen.) Bottom Menu: Quick navigation. Gray in color if disabled (not applicable) on a certain screen.

Step 3: System displays the food items available for that place of business. Step 4: Student chooses the menu item they wish to order. Menu Images and Item name links and open Item Name Description and applicable Options Screen that displays details of the menu item such as description, image, quantity value and an option to add to the cart. Alt-Flow 3.a Student decides to choose a different place of business by following the "More" - Quick navigation menu at the bottom of the screen. 3.b Go back to Step 1 - Place of Business Screen. Bottom Menu: Quick navigation. Gray in color if disabled (not applicable) on a certain screen.

To view other menu items by following the "<Back: " button.

**Number Stepper:**  
To Select the Item Quantity.  
When original selection changed or adjusted, screen variable data will dynamically recalculate, and refresh the screen.

**Square Minus Icon::**  
Visible only if item option is offered. To select offered option of the item. Screen will dynamically recalculate, and refresh variable data when selected.

Adds the menu item to the cart by selecting the circle "+" icon. Links and opens the Order or Cart Summary Screen.

"More". Additional Menu that quick links to other screen. i.e. Place of Business - if user decided to view different menu item from different place of business, Logoff, Informational Screen. Menu Search Screen, etc.

Step 5: System displays details of the menu item such as description, image, quantity value and an option to add to the cart. Alt-Flow. 5.a Student decides to view other menu items by following the "<Back: " button. 5.b Go back to Step 3 - to view other menu items by following the "More" - Quick navigation menu at the bottom of the screen that links to Menu Category of the same place of business. Step 6: Student adds the menu item to the cart by selecting the circle "+" icon. It links and opens the Order Summary screen.

**Number Stepper:**  
When original selection changed or adjusted, screen variable data will dynamically recalculate, and refresh the screen.

**Circle Minus Icon:** Removes or delete the menu item. Screen will dynamically recalculate, and refresh the screen when selected.

**Square Minus Icon:**  
To remove the item option. Screen will dynamically recalculate, and refresh when unselected.

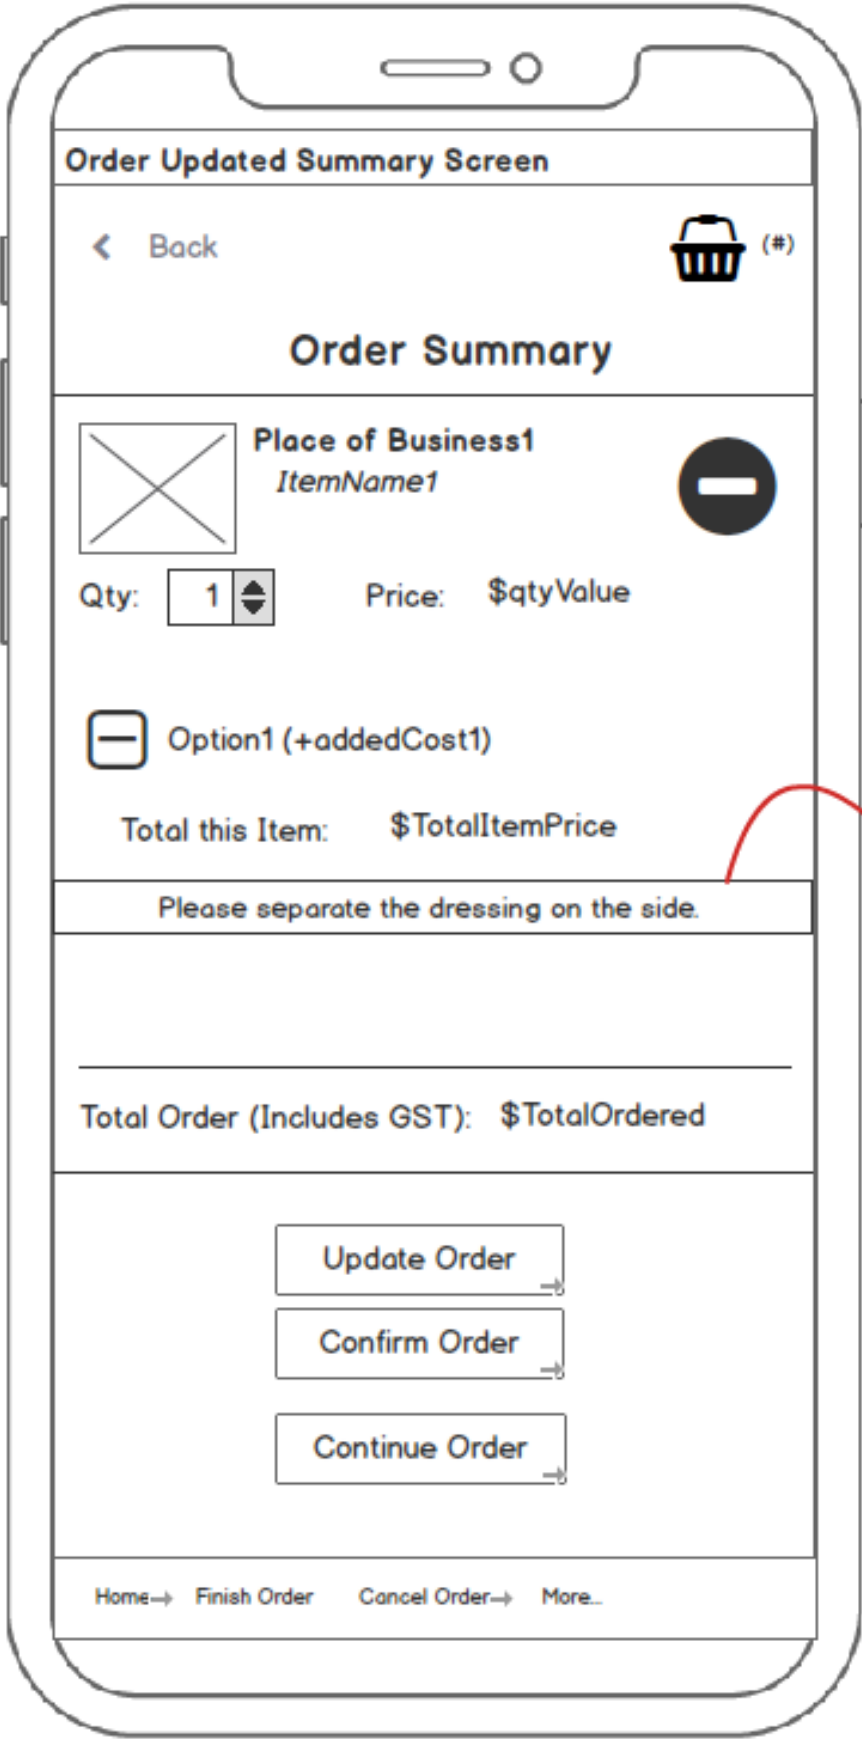

**Add a comment to the item/ restaurant and select Update Order button once completed.**

**Links and open Order Confirmation Screen.** (Optional - out of scope: links to a Payment Gateway then returns to Order Confirmation Screen.)

**Links and open within the Current Place of Business Menu Category to continue adding more menu items.**

(User Case Steps 9 & 10 ). Add a Comment for the restaurant is incorporated in this form/screen. Student have the option to add a comment (or special request instruction) NOT just to restaurant BUT ALSO for the item instead of after confirming the order. It is more logical and efficient to complete this step prior to confirming the order. It is an effective business practice to finalise the information and data before confirming the order. Payment process normally follows after confirming an order. Modifications or additions may complicate a normal process once payment was made. This is the final process before confirming the order, and it will be committed to the system to finalise the data.

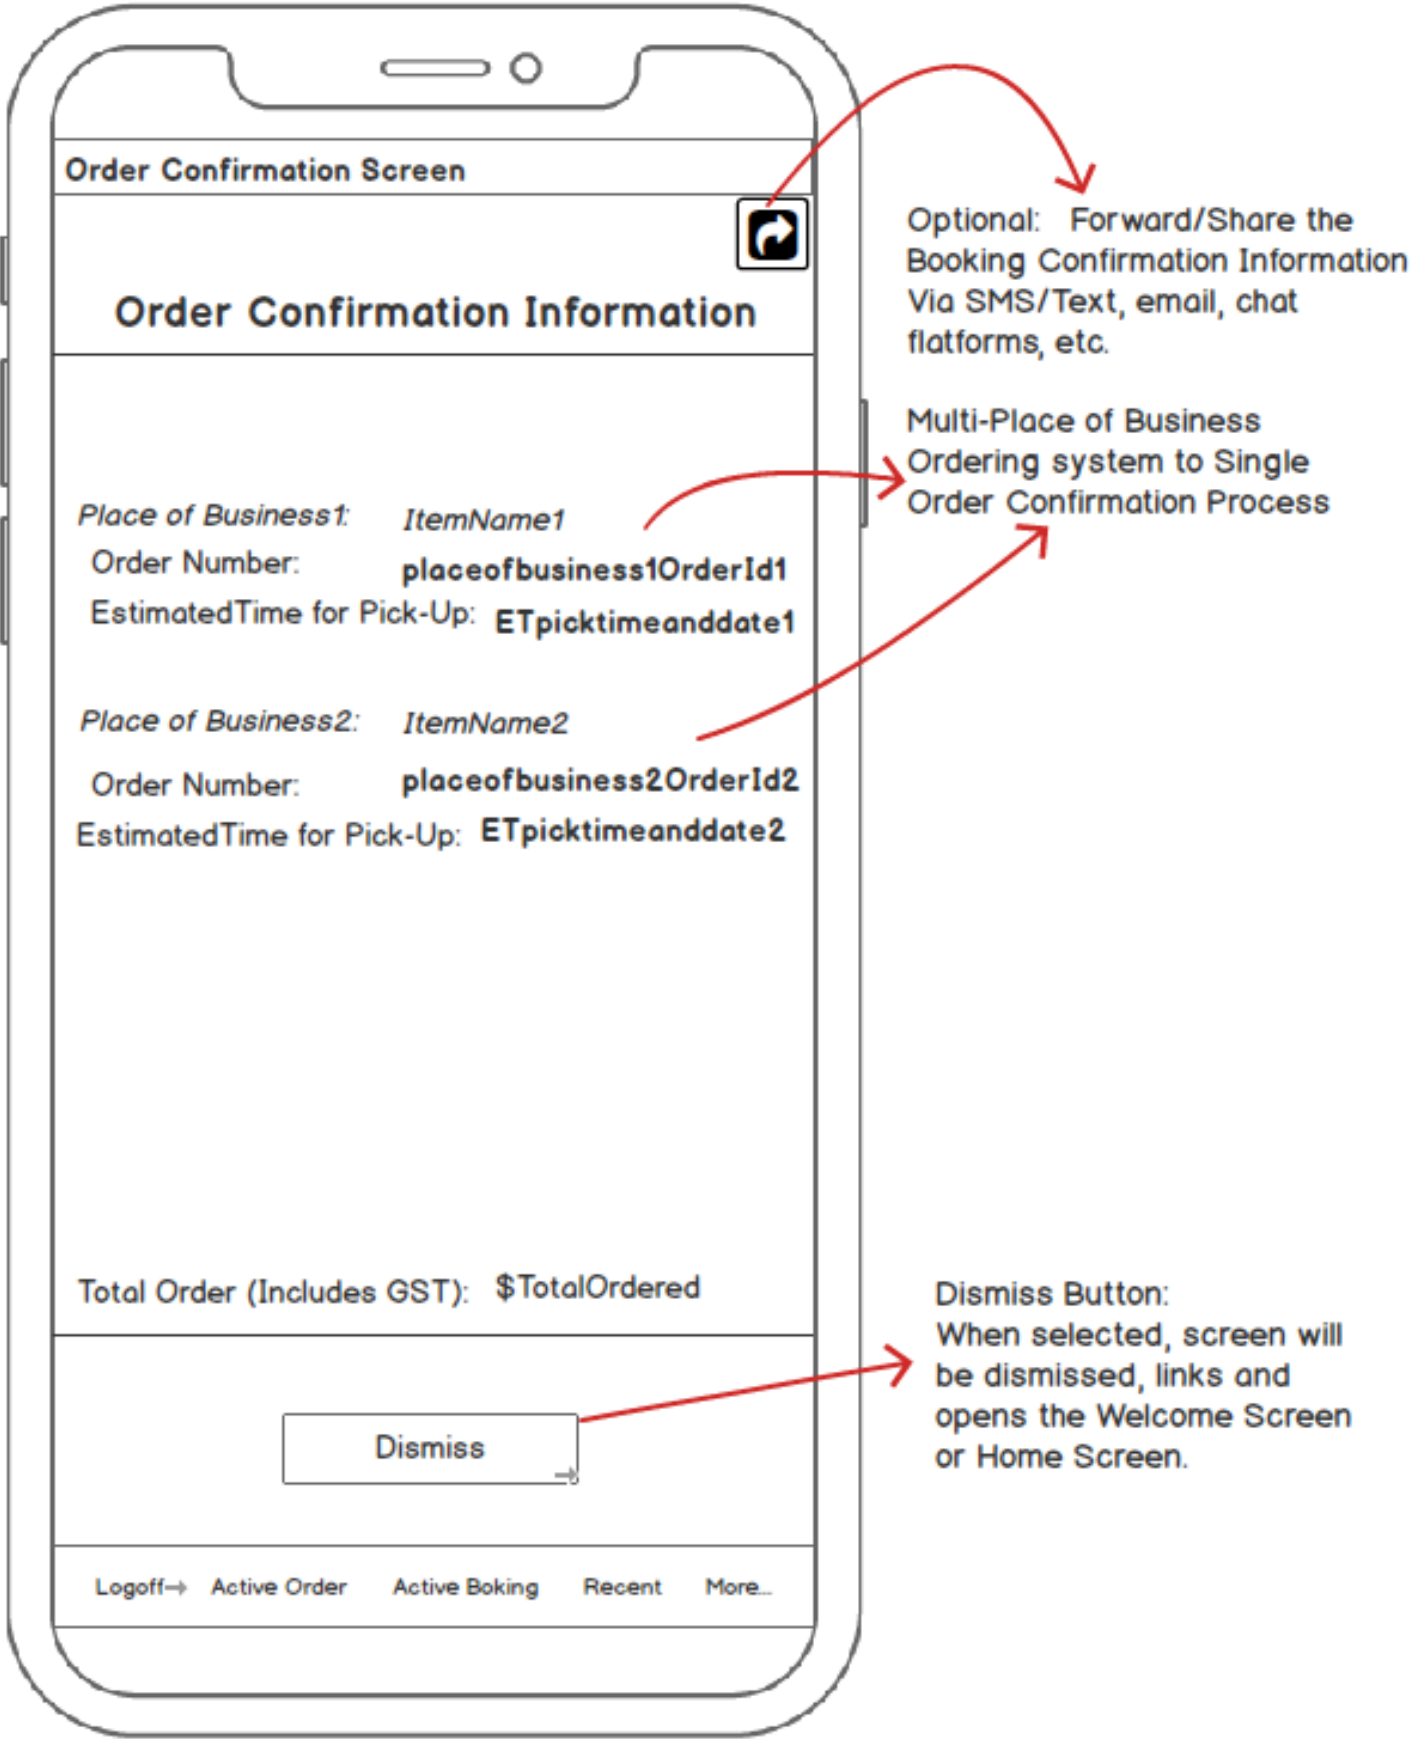

7.a.3 Student decides to cancel the order. Cancel Order located at the Quick Navigation Menu at the bottom of the screen. When selected, Order Cancellation Confirmation screen alert dialogue box will pop-up to confirm Order Cancellation. If "No" is selected, it will link back to Order Summary Screen. Otherwise, the basket or cart will be emptied, links and opens the Place of Business screen. Bottom Menu: Quick navigation. Gray in color if disabled (not applicable) on a certain screen.

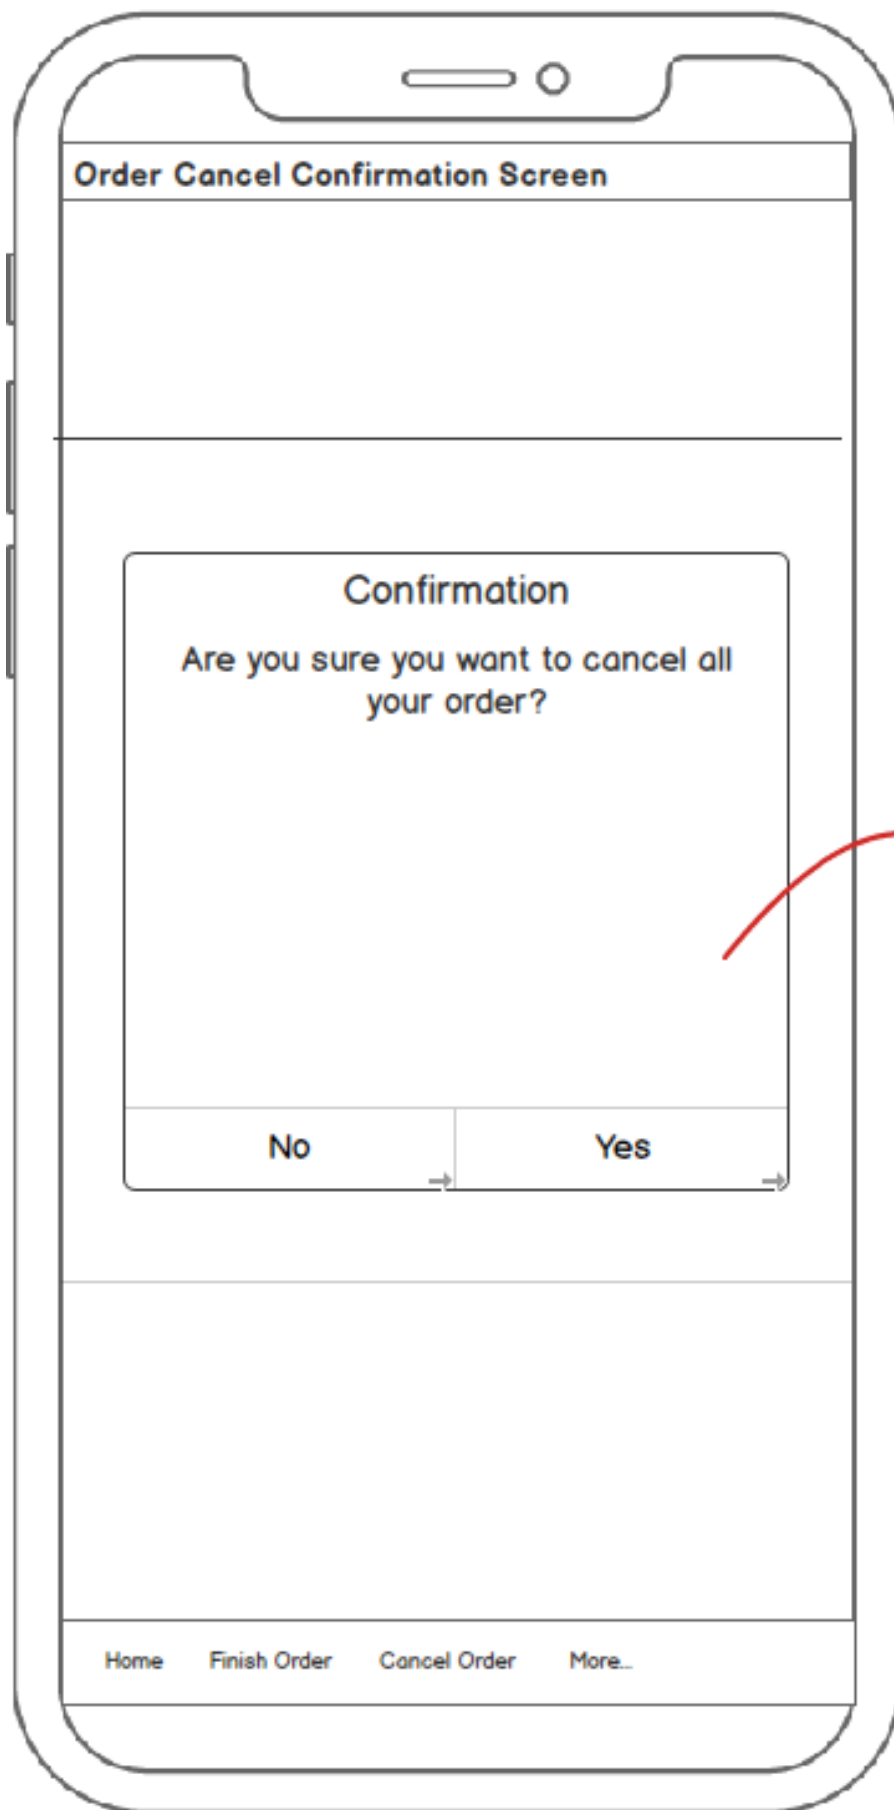

\*\*Sample Screen of Updated Order or Comments Block updated.

\*\*Sample Screen of Updated Order\*\*. Within Screen Viewing Navigation: Swipe-up to see more. Thin gray slider will show on the side of screen if more than one item. Bottom Menu: Quick navigation. Gray in color if disabled (not applicable) on a certain screen.

Within Screen Viewing Navigation: Swipe-up to see more. Thin gray slider will show on the side of screen if more information. Bottom Menu: Quick navigation. Gray in color if disabled (not applicable) on a certain screen.

Order Cancellation Confirmation Alert Dialogue box will pop-up to confirm Order Cancellation. If "No" is selected it will link back to Order Summary Screen. Otherwise, order basket or cart will be emptied, links and open Place of Business Screen.
